DETAILED ACTION

1. Applicant's election with traverse of Group I in the reply filed on November 8, 2004 is acknowledged. The traversal is on the ground(s) that it would not be search burden combine group II. Although classified separately, the argument is found persuasive and group I and II are rejoined.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-12 and 16-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Pilacinaski et al. (EP 0133123).

Pilacinaski et al. disclose the pharmaceutical immunogen of bovine L2 protein as well as bacteria transformed with DNA encoding L2 protein (pages 15, 18 and 31). The L2 protein inherently has the amino acid sequence of SEQ ID NO:2 and is at least 127 amino acids long because there is only one known L2 protein in the bovine genome.

3. No claims are allowed.
